ADITYA RAJ

B.Tech Computer Science Student | 9693074212 | adityaraj912898@gmail.com

Professional Summary

Third-year B.Tech Computer Science student at Noida International University, interested in software development internships and hackathons. Builds web applications using React/Next.js, TypeScript, Tailwind CSS, and MongoDB, with foundational knowledge of DSA, SQL, REST APIs, and AI/ML data preprocessing.

Education

B.Tech, Computer Science — Noida International University (NIU)
Expected graduation: 2028

Technical Skills

Languages: C++, Python, JavaScript, TypeScript, SQL
Web: HTML, CSS, React, Next.js, Tailwind CSS, REST APIs
Tools & Data: Git, GitHub, MongoDB, data preprocessing, basic AI/ML
Core: Data Structures and Algorithms (DSA)

Projects

KisanConnect — Farmer-to-Consumer Marketplace | Team Innovexa

- Developing an AI-enabled marketplace concept connecting farmers/FPOs directly with consumers and bulk buyers.
- Planned capabilities include product listings, price and demand insights, location discovery, multilingual support, and online payments.
- SIH Problem ID: 26033. Live demo

LifeLinks — Donor Matching Website

- Concept for an AI-assisted blood and organ donor matching website, designed to help connect people seeking donors with potential donors.

House Hunt / Rental App

- Worked on a rental-property web app concept for browsing housing options. Live demo

Hackathons & Team Contributions

Smart India Hackathon (SIH) project development — Team Innovexa: Contributing to the KisanConnect concept for Problem ID 26033, with focus on marketplace features and demand/price insight planning.

Relevant Coursework & Learning

Data Structures and Algorithms, SQL, web development, and introductory AI/ML concepts.

Career Interests

Software development internships, collaborative projects, and hackathons.
